

# LUNCH & LEARN

Sponsored by FCPS and  
Frederick County Infants & Toddlers Family Support Services

## The IEP Process - Building Partnership Through Conversations

### *Virtual Workshops for Families*

#### **What this series will address:**

Why are IEP meetings often uncomfortable, awkward, and stiff? Educators and families all have a common goal -- to support the development of the child. Yet, educators often feel confused that families act like reluctant participants who are just fulfilling a requirement. And families often feel that they're viewed as intruders, whose insights and dreams for their child don't count.

In this virtual workshop series, Dr. Amy Pleet-Odle will explain perspectives of both families and educators and suggest questions families should ask to make the IEP process a productive experience for all. Participants in this live event will have interactive, problem-solving opportunities to practice with asking questions.

To register for Workshop 3: **Progress Monitoring - Understanding IEP Effectiveness & Questions to Ask**

**Tuesday, February 9th (12:00 EST)**

#### **What this workshop will include:**

- ★ Questions to ask about IEP goals for your child
- ★ Examples and non-examples of measurable IEP goals
- ★ How to understand IEP progress reports
- ★ Practice asking questions about sample IEP progress monitoring
