

# The Knee High Knights Preschool at Middletown High School Is currently accepting applications for the 2021-2022 school year

The program encourages social, emotional, cognitive, language and physical development. A wide range of activities will be offered to take children through various areas in which they may achieve growing skills and concepts. Science, math, arts, language, music and creative dramatics will help your child grow independently and feel successful. This is a preschool learning laboratory for high school students enrolled in Child Development classes. The students will be working with and teaching the children directly.

Preschoolers must be potty-trained and ages 3 or 4 as of September 1<sup>st</sup> of the school year they are attending.

Applications are processed in the order received. Deposits are not accepted with the application. Registration forms, health information forms, and payment information will be sent after the application process is completed. If there are no openings at that time, your child will be placed on a waiting list.
