Quarantine Tutoring Opportunities

Tutoring is available to all students who have been required to quarantine.

Families should notify the Attendance Office of quarantine/isolation as soon as possible.

Notification can be made by calling the school or emailing mhs.attendance@fcps.org.

Families are encouraged to communicate with teachers via Schoology about course work expectations and virtual tutoring opportunities available.

In the event that tutoring cannot be arranged with a student's assigned classroom teacher, back-up tutors are available for each content area.

Saturday Academy

Coming Soon! Saturday Academy is an opportunity for invited students to participate in additional skill reinforcement and/or remediation in the following content areas: English, math, social studies, science, and special education.

Additional information will be shared in the near future.
