Dear Families,

This summer, Hood College will be holding their annual Summer Reading Clinic. This year the reading clinic will be virtual and free to all participating students. This is a great opportunity for your child to receive personalized learning and tutoring with a certified teacher. Teachers are candidates in the Hood College Master of Reading Specialization graduate program. They are highly trained to provide appropriate, explicit instruction and feedback.

This clinic will be held via Zoom and some sessions will be recorded using Hood's secure Learning Management System. Recordings will be shared with professors for feedback on teaching. The sessions will be two hours long, and there will be no sessions on Fridays. The clinic will be held from July 5-August 4, 9:30-11:30. We would love for your child to join us in this exciting learning opportunity this summer!

In order to enroll your child in the Summer Reading Clinic, we will need your signature along with a signature for permission to record using Zoom.

I give permission for my child to participate in the Summer Reading Clinic program.

I give permission for my child to be recorded via Zoom.
