

# ACE

## Architecture Construction Engineering

### What is ACE?

Program designed to introduce students to career opportunities in the ARCHITECTURE, CONSTRUCTION, & ENGINEERING fields.

### Who is ACE for?

Any High School student interested in architecture, construction or engineering.

### Program Structure?

Through 15 bi-weekly sessions students learn about ACE fields by selecting a design project simulating a real-life situation & work through the entire design process.

### The ACE Mission

To engage, excite and enlighten high school students to pursue careers in architecture, engineering and construction through mentoring and to support their continued advancement in the industry.

### How to Apply
