

## **Update for the Myersville ES community**

Good afternoon Myersville Elementary families,

This morning, we were informed by the Town of Myersville that a boil water advisory had been put into effect due to concerns about water quality.

Once informed, we coordinated with our FCPS Operations staff to have bottled water delivered to the school for students to drink as an alternative.

Our lunches continued as scheduled, but as a result of the boil water advisory, the cafeteria did not serve the planned meal for the day and students received a boxed lunch.

Additionally, our restrooms are still operational and we have supplied each restroom with hand sanitizer.

We will continue to stay in contact with the Town of Myersville and follow all health department protocols.

Thank you,  
Dana Austin  
Myersville Elementary Principal
