## THE NATURE OF BOOKS (Rising 3rd to 5th Graders)

*July 17-21  
9am-3:30pm  
\$300 per student*

Join us for a week of discovering where books come from and then learning how to grow a book of your own! We will be merging the outdoor and indoor classroom as we explore the trees in Baker Park and return to the studio with material to print with. Students will make paper, print with relief images, the sun, write poetry, and at the end of the week, each student will assemble and bind the pages they created into a book of their own.

*Scan to go to the FBAC class sign up website*
