

More and more teens are starting businesses and becoming entrepreneurs. Here at Junior Achievement of Central Maryland, our **JA Entrepreneurship Summer Experience Camp** is designed to provide high school students the opportunity to experience life as a budding entrepreneur! Rising 9th-12th graders are invited to join us for a week this summer to learn the in's and out's of building a successful business, launch a product and hear from some of Maryland's top up and coming Business Owners and Entrepreneurs. Don't miss this unique opportunity!
