Suicide and Depression in Teenaged Youths

What are the signs that my child is at risk? What are the risk factors I should be aware of? What is the difference between Depression and good ol' fashioned "teen angst?" The speaker will address these questions and specifically lead a discussion about how to mobilize proper awareness, intervention and treatment surrounding suicide, the third leading cause of death for people ages 15 to 24. Presenter is Kevin Graditor, LCSW-C of Blue Ridge Behavioral Health.
