

OHS Registration for 2023-2024

Today, OHS Kicked off the registration process for School Year 2024. During SET, students were instructed to log into Schoology in their Class specific Schoology groups to view a Counseling office video that explains the requirements for each specific grade level. Students should also take the time to review the videos provided by our various academic departments, using this time to research core courses and elective courses that they might be interested in next year.

On Monday, January 30, each student will receive their course registration sheet for SY24. During that week, students will re-visit their first semester courses to receive course recommendations from their teachers.

On February 1 at 6pm, we will be holding our Registration Information Night and Electives Fair where you and your parents can get even more information about course offerings for next year. We will also have information sessions on Advanced Placement and Dual Enrollment offerings. Registration sheet will be due back on **Monday, February 6th**.

Please encourage your student to take these opportunities seriously, as we determine our staffing and course offerings based on what you sign up for. Thank you!
