What we have learned after the first couple of events:

Set up your account ahead of time.

Please click the link above to set up your account.

Ticket Spicket requires an account to purchase online tickets.

When you have your account as you arrive, it saves you time purchasing your tickets.

Purchase your tickets before the event to save time standing in line!

We will have links onsite for you to purchase at the gate.

This saves you even more time getting into the event!

No need to print tickets

Ticket takers will view your ticket on your mobile device.

Come out and cheer for your Knight's!
